WHO WE ARE

About TaeTae Foundation

The Tae Williams Foundation also known as the Tae Tae Foundation is a registered, non-profit, organisation dedicated to the holistic development of the boy-child.

Our aim is on transform boys into responsible, skilled, disciplined, and confident young men through structured programmes.

CORE FOCUS

Holistic Development Of The Boy-child

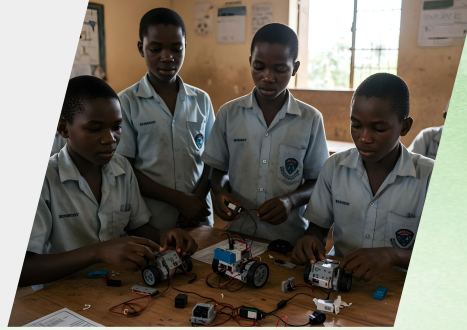

Developing boys into skilled, disciplined, and socially conscious young men through:

- Sports
- Education
- Skills acquisition
- Mentorship

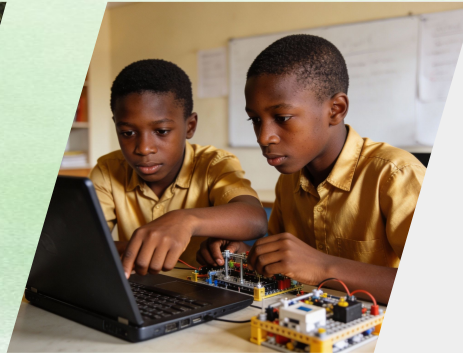

MISSION

To identify, nurture, and develop the **talents, abilities, and character of the boy-child**, especially in underserved communities, by providing access to structured sports programmes, vocational and digital skills, supplementary quality education, and mentorship, as well as opportunity platforms.

VISION

To raise a generation of young men who are **intellectually capable, physically fit, emotionally intelligent, and economically empowered**, able to compete locally and internationally.

THE PROBLEM

OVER 60% OF NIGERIA'S POPULATION IS UNDER THE AGE OF 25.

How boys are guided during their formative years will determine the country's future workforce, stability, and growth.

THE COST OF INACTION

When the boy-child is not supported and developed:

- Communities will absorb the social and economic consequences
- Employers will face shrinking talent pipelines
- Governments inherit preventable long-term challenges

IF BOYS ARE LEFT WITHOUT DIRECTION, SOCIETY PAYS THE PRICE.

WHEN THERE IS NO GUIDANCE, BOYS ARE EXPOSED TO:

- Prolonged unemployment and disengagement
- Street exposure and unsafe survival behaviours
- Negative peer influence, including substance use
- Lost talent and unrealised potential

**THESE ARE NOT FAILURES OF CHARACTER
THEY ARE FAILURES OF ACCESS.**

THE SOLUTION

A Structured, Scalable Pathway for the Boy-Child

The TaeTae Foundation delivers a holistic, **data-driven development** that guides boys from early adolescence into productive, skilled, and socially responsible young men.

WHAT WE DO

We combine four proven pillars into one coordinated programme:

EDUCATION & MENTORSHIP

Strengthening academic foundations, confidence, values, and life skills.

SKILLS & FUTURE WORK

Equipping boys with vocational, STEM, digital, and creative skills linked to employability.

SPORTS DEVELOPMENT

Using structured sports to build discipline, teamwork, health, and leadership.

VOLUNTEER & TRAINER ECOSYSTEM

Developing coaches, mentors, and artisans to deliver programmes safely and consistently.

HOW IT WORKS

PROGRAMMES ARE DELIVERED THROUGH SCHOOLS, SPORTS TEAMS, AND COMMUNITY PARTNERS:

- Each boy follows a progressive development pathway, not one-off interventions
- Volunteers and trainers are trained, certified, and monitored
- All activity and outcomes are tracked on a central digital platform.

WHY THIS MODEL WORKS

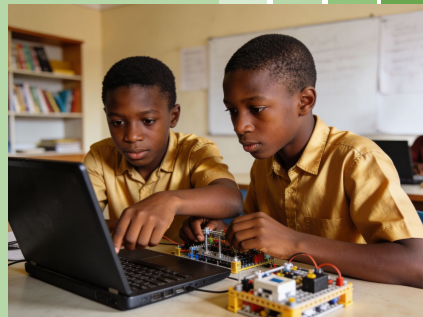

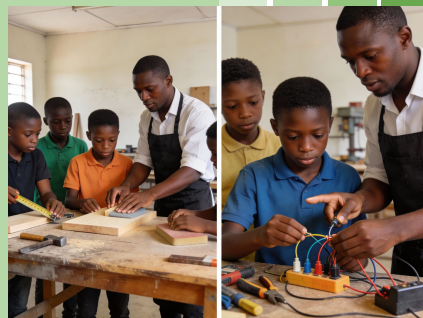

- Early intervention reduces long-term social and economic costs
- Structure replaces risk with opportunity and direction
- Data ensures accountability, transparency, and continuous improvement
- Partnerships enable scale without sacrificing quality

WHAT SUCCESS LOOKS LIKE

Improved academic engagement and life skills:

- Job-ready and future-ready young men
- Stronger communities and safer environments
- Measurable, reportable impact for partners and donors.

We do not rescue boys we build pathways that allow them to succeed.

PRIMARY OBJECTIVES

TARGET BENEFICIARIES

Primary: **Boys aged 10 - 14**

Secondary: Young male volunteers, coaches, artisans, teachers, and mentors who are upskilled to train the boys

Communities: Local sports teams, schools, and vocational clusters

FOUNDATIONAL OBJECTIVES

- Physical and cognitive development of the boy-child
- Identification and nurturing of talent for global competitiveness
- Skills acquisition and vocational empowerment
- Education, mentorship, guidance, and counselling
- Character formation through sports and structured learning
- Financial and intellectual support for promising boys

These objectives are explicitly stated in the Foundation's constitution

OUR RESPONSE

Our Holistic Development Model

We intervene early and consistently to develop:

- The body (sports & fitness)
- The mind (education & STEM)
- The hands (skills & vocation)
- The character (mentorship & values)

Our approach combines practical training, discipline, opportunity, and accountability

PROGRAMMATIC PILLARS

The Foundation Operates Through **Four Integrated Pillars.**

SKILLS ACQUISITION & FUTURE WORK PROGRAMME

OBJECTIVE

Equip boys with **employable, entrepreneurial, and future-ready skills.**

STEM & Digital

- Applied science (hands-on experiments)
- Programming & software development (C, Python, JavaScript)
- Robotics & STEM clubs
- Content creation (video, photography, editing, design)
- Digital literacy & responsible tech use

SKILL TRACKS

Technical & Vocational

- Electrical installation & maintenance
- Mechanical & basic engineering skills
- Automotive and machinery basics

DELIVERY MODEL

- Partner with **artisans, tech hubs, polytechnics, and vocational centres**
- Modular training (beginner → intermediate → advanced)
- Certification and portfolio-based assessment

SPORTS DEVELOPMENT PROGRAMME

Through structured training and strategic partnerships, the Sports Development Programme transforms raw talent and energy into discipline, teamwork, and opportunity using sport as both a developmental tool and a potential pathway to excellence.

OBJECTIVE

Develop **discipline, physical excellence, teamwork, and leadership** while creating pathways to professional and semi-professional sports.

CORE SPORTS

- **Football** (primary team sport)
- **Athletics** (track & field)
- **Combat sports** (boxing, taekwondo)

KEY ACTIVITIES

- Grassroots sports academies
- Community and inter-school tournaments
- Talent identification camps
- Coach training and referee development
- Equipment donation and infrastructure support

PARTNERSHIPS

- Existing local sports teams
- Schools and community fields
- Sports federations and NGOs

EDUCATION & MENTORSHIP PROGRAMME

This programme equips boys with strong academic foundations, life skills, and guidance required to navigate education, work, and leadership with confidence ensuring learning is reinforced by mentorship, character development, and positive role models.

OBJECTIVE

Build strong academic foundations and life skills

ACADEMIC FOCUS

- English language
- Mathematics
- Applied science
- Digital literacy

LIFE & SOFT SKILLS

- Communication and public speaking
- Leadership and teamwork
- Diplomacy and conflict resolution
- Ethics, discipline, and responsibility
- Career guidance and goal setting

MENTORSHIP MODEL

- Group mentoring sessions
- One-to-one mentor matching
- Exposure talks from professionals and athletes
- Guidance and counselling services

VOLUNTEER & TRAINER DEVELOPMENT PROGRAMMES

Through international collaborations with professional coaches, technical experts, and higher institutions, TaeTae Foundation delivers train-the-trainer programmes that ensure that our local capacity with global standards.

OBJECTIVE

Create a **sustainable ecosystem of trained volunteers and professionals**

TARGET GROUPS

- Coaches
- Teachers
- Artisans
- Technologists
- Youth leaders

These groups form the backbone of our programme delivery, ensuring boys are supported by qualified and trusted mentors in education, skills, sports, and technology.

KEY OUTCOMES

- Train-the-trainer programmes
- Coaching and teaching certifications
- Volunteer leadership pipelines
- Youth employment and career pathways

The programme builds a pipeline of certified trainers and volunteer leaders, strengthening youth development. Over time the boys will also become part of the development pathways for future cohorts

DIGITAL PLATFORM & DATA-DRIVEN IMPACT

The Foundation will operate a digital web application to ensure **transparency, accountability, and measurable impact.**

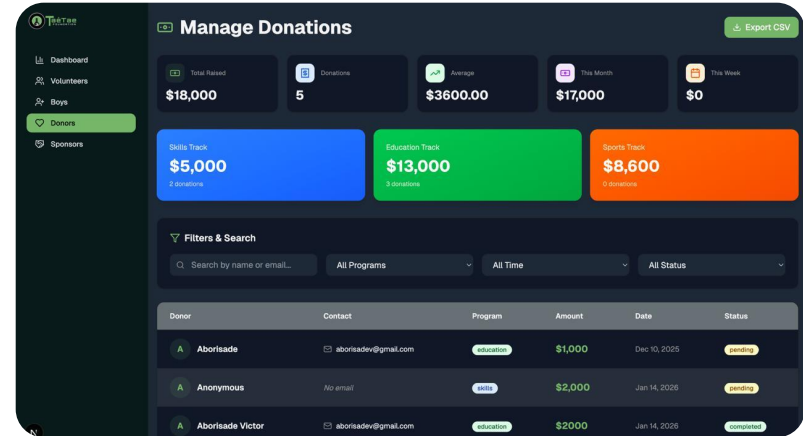

TRANSPARENCY AS A SERVICE

taetaefoundation.org 

CENTRALISED PROGRAMME MANAGEMENT

Allows us track every boy, volunteer, and trainer in one system

- Skills and academic progress tracking
- Sports performance metrics
- Comparative benchmarking across regions and countries

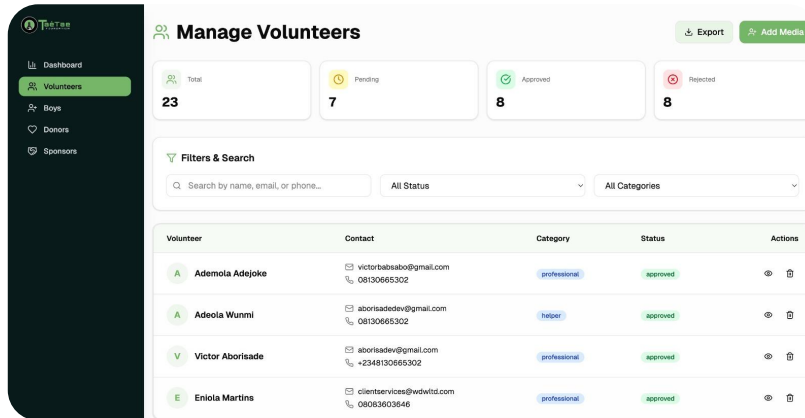

PLATFORM CAPABILITIES

- Donation & sponsorship tracking
- Volunteer onboarding and activity logs
- Attendance and participation records impact reports

VOLUNTEER & TRAINER ACCOUNTABILITY

Track assignments and engagement levels, whilst maintaining safeguards, compliance and quality delivery.

The 'Manage Volunteers' dashboard includes a sidebar with navigation options: Dashboard, Volunteers, Boys, Donors, and Sponsors. The main content area features a 'Manage Volunteers' header with 'Export' and 'Add Media' buttons. Below the header are four summary cards: 'Total' (23), 'Pending' (7), 'Approved' (8), and 'Rejected' (8). A 'Filters & Search' section allows users to search by name, email, or phone, and filter by status and category. Below the filters is a table of volunteer records.

AN ACCOUNTABLE DATA-DRIVEN NGO

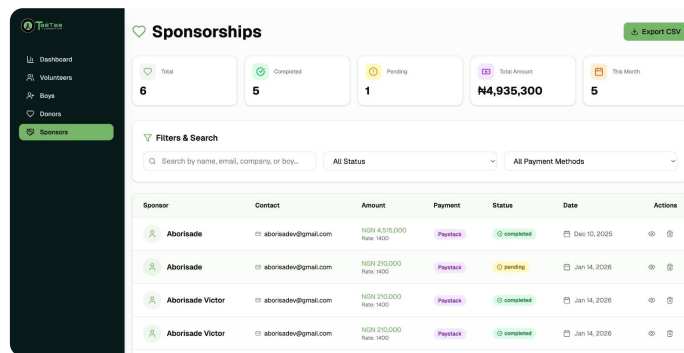

TECHNOLOGY THAT TURNS IMPACT INTO MEASURABLE OUTCOMES

Transparency: Our stakeholders know exactly where funds go and what they achieve

Accountability: Audit-ready data at any point in time

LIVE SPONSORSHIP & FUNDING DASHBOARD

Track donor contributions, allocations, and programme funding in real time.

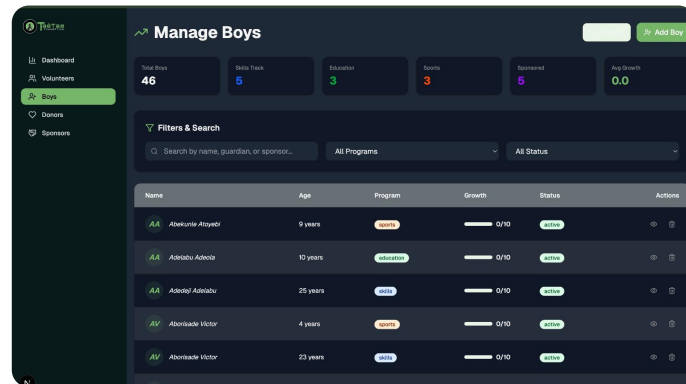

REAL-TIME FINANCIAL TRANSPARENCY

Live visibility into sponsorships, donations, and allocations, with a clear audit trails from funding received to activities delivered.

PARTICIPANT PROGRESS & PROGRAMME MANAGEMENT

Monitors engagement, outcomes, and development pathways for every boy.

We monitor academic, skills, sports, and mentorship progress per participant.

We identify high performers, at-risk participants, and intervention needs early.

FIVE-YEAR STRATEGIC IMPLEMENTATION PLAN

Target: 2,500 boys

YEAR 1 – FOUNDATION & PILOT

STRATEGIC FOCUS

(500 BOYS)

Governance & Safeguarding:

Strengthens trustee oversight, child safeguarding frameworks, volunteer screening, and reporting structures to meet corporate and international NGO standards. A strong volunteer and trainer base ensures programme quality, child safety, and consistency across all locations.

Pilot Delivery & Proof of Impact:

Run tightly managed pilot programmes in Lagos and one additional region to test curriculum, coaching models, and community engagement before national rollout.

Digital Infrastructure (MVP):

Launch the first version of the Foundation's digital platform to track beneficiaries, volunteers, programmes, and donor impact in real time.

RECRUIT CORE VOLUNTEERS & TRAINERS

Identify, vet, and onboard a core cohort of volunteers and trainers including:

- Sports coaches
- Teachers and STEM facilitators
- Artisans and technical instructors
- Mentors and youth leaders

Key Actions

Background checks and safeguarding training, train-the-trainer workshops.
Clear codes of conduct and performance expectations
80–100 trained volunteers and facilitator

10 SCHOOLS AND 14 SPORTS TEAMS

Formal partnerships with:

12 secondary schools
14 grassroots sports teams or academies

Key Actions

Embed STEM, digital literacy, and mentorship sessions within schools
Support sports teams with:
Equipment
Coaching support
Organised leagues and tournaments

LAUNCH FOOTBALL, ATHLETICS, AND BASIC STEM PILOTS

Roll out two flagship pilot tracks:

- Football & athletics development programme.
- Introductory STEM & applied science programme
- Structured training sessions
- Talent identification
- Discipline, teamwork, and leadership development

STEM Pilot

Hands-on science activities
Introductory coding and problem-solving technology as a tool.

BEGIN DIGITAL LITERACY & MENTORSHIP SESSIONS

Introduce boys to:

- Basic digital skills
- Responsible technology use
- Communication and confidence-building
- Mentorship Focus
- Life skills and values

Goal setting and career awareness, guidance on behaviour, responsibility, and decision-making for shapes character, mindset, and long-term life outcomes, beyond just technical abilities.

YEAR 2 – EXPANSION & STRUCTURE

STRATEGIC FOCUS

(1,000 boys)

Programme Scale with Quality Control

Expand proven programmes to reach 1,000 boys while maintaining standardised delivery, safeguarding, and monitoring.

Pathways

Launch structured electrical and mechanical skill tracks that lead to employability and apprenticeship pathways.

Expanded Sports & Human Capacity Development

Roll out athletics and combat sports while professionalising coaches and mentors through certification.

KEY ACTIVITIES

ELECTRICAL & MECHANICAL SKILL TRAINING

What We Do

- Introduce hands-on electrical and mechanical training modules
- Partner with artisans, workshops, and technical instructors
- Emphasise safety, discipline, and practical problem-solving

ATHLETICS & COMBAT SPORTS ROLLOUT

What We Do

- Launch athletics programmes (track & field)
- Introduce boxing and taekwondo with certified instructors
- Organise structured training schedules and competitions

Physical performance

benchmarks recorded digitally
Early identification of elite and high-potential athletes

COACH & MENTOR CERTIFICATION

What We Do

- Certify coaches, mentors, and trainers
- Deliver leadership, safeguarding, and youth development training
- Establish performance review and re-certification processes

Clear trainer performance metrics
Reduced dependency on informal delivery

NORTH-FRIENDLY ADAPTATIONS

What We Do

- Adapt programme delivery to Northern Nigerian contexts
- Engage community and religious leaders
- Emphasise education, athletics, mentorship, and life skills

Community-endorsed delivery models for high attendance and retention rates

YEAR 3 – REGIONAL GROWTH

STRATEGIC FOCUS

(1,500 boys)

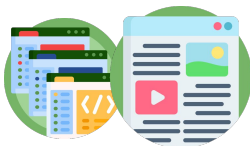

Multi-regional Presence

Expand active programmes across the South-West, South-East, and Northern Nigeria, adapting delivery to local contexts while maintaining national standards.

Institutionalised Partnerships

Deepen collaboration with schools, artisans, sports bodies, and community organisations to embed programmes into existing ecosystems.

Talent Identification & Benchmarking

Move from participation to performance tracking, identifying high-potential boys across academics, skills, and sports.

STEM LABS IN PARTNER SCHOOLS

STEM labs move learning from theory to practical experimentation, improving comprehension, curiosity, and confidence.

- Establish basic STEM labs in selected partner schools
- Deliver hands-on science, technology, and problem-solving sessions
- Train teachers and facilitators to sustain lab usage

PROGRAMMING & CONTENT CREATION TRACK

Prepare boys for the digital economy and creative industries.

Introduce structured tracks in:

- Basic programming and software logic
- Digital content creation (video, design, storytelling)
- Emphasise creativity, ethics, and responsible digital citizenship

Digital skills are a cross-cutting employability asset applicable across industries.

REGIONAL TOURNAMENTS AND SHOWCASES

Create visibility, motivation, and progression opportunities.

- Organise regional sports tournaments (football, athletics, combat sports)
- Host academic and skills showcases for STEM and vocational tracks

Invite scouts, educators, and partners to observe talent

Showcases turn training into opportunity, reinforcing discipline and aspiration.

DIGITAL BENCHMARKING ACTIVATED

Activate national and regional benchmarking on the digital platform
Compare academic, skills, sports, and behavioural metrics
Track individual and cohort progress over time
Benchmarking enables evidence-based decision-making, not anecdotal reporting.

All 1,500 boys digitally profiled
Regional performance comparisons live
Partner-ready impact reports generated
Partner Benefit:
Transparent, data-rich reporting suitable for CSR, ESG, and donor audits.

YEAR 4 – CONSOLIDATION & EXCELLENCE

STRATEGIC FOCUS

(2000 boys)

Quality & Performance Outcomes

Strengthen programme depth, ensuring boys demonstrate measurable improvement across academics, skills, sports, and character.

Advanced Training & Exposure

Provide high-performing participants with access to elite training environments, competitions, and real-world work exposure.

Pipeline Development

Formalise pathways from programme participation into competitions, internships, apprenticeships, and mentorship roles.

KEY ACTIVITIES

Partner Objective:

Develop high-potential participants into elite performers.

What We Do

Identify top-performing boys in sports, STEM, and digital tracks

Place them into elite cohorts with advanced coaching and instruction

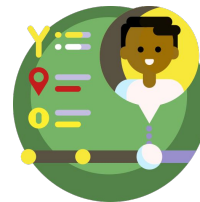

Provide specialised training, equipment, and mentorship

NATIONAL COMPETITIONS

Translate skills into real-world opportunity:

- Place boys into internships with corporate partners
- Link vocational participants to artisan-led apprenticeships
- Introduce workplace readiness, ethics, and professionalism training

ALUMNI MENTORING PIPELINE

ELITE SPORTS & TECH COHORTS

- Participate in national sports competitions
- Host national STEM, coding, and innovation challenges
- Showcase programme outcomes to partners, media, and institutions

INDUSTRY INTERNSHIPS & APPRENTICESHIPS

Build a self-sustaining ecosystem:

- Transition older programme graduates into junior mentors
- Train alumni to support younger cohorts
- Create leadership, responsibility, and continuity

Alumni engagement strengthens culture and long-term sustainability.

YEAR 5 – SUSTAINABILITY & SCALE

STRATEGIC FOCUS

(2500 + boys)

Long-Term Sustainability

Embed systems, leadership, and funding models that allow programmes to continue independently of founding leadership.

Replication & Scale Readiness

Codify programmes, tools, and governance into a clear replication blueprint suitable for other African contexts.

Partner Accountability & Legacy

Deliver comprehensive impact reporting and transition leadership to alumni and volunteers.

KEY ACTIVITIES

Validate impact, governance, and financial integrity.
Commission independent third-party audits of:

- Programme outcomes
- Financial management
- Safeguarding and governance
- Review delivery efficiency and cost-per-beneficiary

Independent audits build credibility with corporates, governments, and multilaterals.

Audit-ready governance systems in place

INDEPENDENT PROGRAMME AUDITS

IMPACT REPORTING TO DONORS & GOVERNMENT

Translate activity into evidence backed outcomes.
Produce comprehensive impact reports aligned with:

- CSR and ESG frameworks
- SDGs
- Government youth and education priorities
- Present findings to donors, regulators, and public institutions

Annual impact reports published for donors, government, and general public.

Enable responsible continental expansion.

Document the full operating model:

- Governance and safeguarding frameworks
- Curriculum and training frameworks
- Digital platform architecture
- Partnership structures
- Adapt blueprint for diverse African contexts

Replicate without quality loss requires,
Create a replication toolkit
Initiate pilot expansion discussions
Create regional adaptation guidelines.

SCALE BLUEPRINT FOR OTHER AFRICAN COUNTRIES

FULL ALUMNI & VOLUNTEER LEADERSHIP HANDOVER

Ensure continuity through local ownership.
Transition operational leadership to trained alumni and senior volunteers

- Formalise alumni governance and mentorship roles
- Retain institutional memory while reducing founder dependency
- Why It Matters True sustainability is achieved when beneficiaries become leaders.

IMPACT METRICS

We track reach, outcomes, and effectiveness across education, skills, sports, and mentorship programmes captured and reported through our digital platform for full transparency.

TAETA FOUNDATION THE IMPACT

2,500+ BOYS TRAINED

Boys supported across education, skills, sports, and mentorship pathways

Longitudinal tracking from early adolescence to young adulthood

Clear progression records for each participant

300+ CERTIFIED VOLUNTEERS & TRAINERS

Coaches, mentors, artisans, and facilitators trained and certified

Strong safeguarding, delivery quality, and leadership continuity

Reduced dependency on external facilitators

70% ACADEMIC IMPROVEMENT BENCHMARK

Measured improvement in literacy, numeracy, applied science, and engagement

Pre- and post-assessment comparisons and logged digital

Stronger school retention and confidence indicators

80% VOCATIONAL OR DIGITAL EMPLOYABILITY

Participants placed into apprenticeships, internships, or paid work

Job-ready technical, digital, and creative skill sets

Early income-generation and entrepreneurship pathways

AFTER 5 YEARS OF CONSISTENCY NATIONAL SPORTS REPRESENTATION PATHWAYS

Identified elite athletes progressing into regional and national pipelines

Structured exposure through tournaments and scouting opportunities

Discipline, leadership, and health outcomes extending beyond sport

TRANSPARENT REPORTING

Real-time tracking of funding, activities, and outcomes

Audit-ready reports aligned with CSR, ESG, and SDG frameworks

Full accountability to donors, partners, and government stakeholders

WHY PARTNER WITH TAETAE FOUNDATION

TaeTae Foundation is not a short-term intervention.

It is a structured, accountable, and scalable youth development platform.

WHAT SETS US APART

Early, intentional intervention
with measurable outcomes

Integrated model (education,
skills, sports, mentorship)

Transparent digital reporting
and audit readiness verifiable
impact data for reporting and
audits

**Strong safeguarding and
governance frameworks**
Proven scalability across regions
and contexts

THE LONG-TERM VISION

From Boys to Leaders. From Nigeria to Africa.

Our long-term vision is to build a self-sustaining ecosystem where boys grow into skilled, responsible men and return as leaders, mentors, and trainers.

The challenge facing the boy-child is clear.
The cost of inaction is measurable.
The time to act is now.

A generation prepared for work,
responsibility, and leadership.

THANK YOU
